THREAD

Joint Training on Numerical Modelling of Highly Flexible Structures for Industrial Applications

DEFINITIVE RESOLUTION Call for the selection of early stage researcher (ESR7) to be hired for participation in the project "Multibody Formulation for the Analysis of Wire-Rope Reeving Systems" to be developed at the University of Seville, Spain, that is part of the European Training Network "Joint Training on Numerical Modelling of Highly Flexible Structures for Industrial Applications" funded from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 860124.

Call made on December 12, 2019

In accordance with the Minutes of the Valuation Commission (attached to this document), proposes the hiring of the following candidate:

MOHAMMADI, NARGES

Principal Investigator: ESCALONA CUARESMA, JOSÉ LUIS - Professor of Mechanical Engineering at University of Seville.

Based on this, the contract awarded to Mrs. Narges Mohammadi, may be a maximum of 36 months.

Seville, March 02, 2020, Vice-Rector for Research

Mr. Julian Martínez Fernández
