Dear Dr. Palomo Pinto,

I am pleased to inform you officially that the application from the Group of Electronic Engineering (GIE), University of Sevilla, Spain as Associated Institute in CMS Experiment that was presented during the April CMS week, was accepted by the CMS Collaboration Board (CB) with an overwhelming majority on 23 June 2017.

You are kindly requested to send the Institute's official letterhead to cms.people@cern.ch and to fill in and return the CERN Users Office form 'Appointment of Team Leader', which will be sent to you shortly by the CMS Secretariat. Please check/complete the data for your group and communicate to us the composition of the group: to get registered with CMS cms.people@cern.ch should be contacted.

As an Associated Institute, you are expected to make an appropriate contribution to the CMS Common Projects or other common items such as computing facilities and expected to cover the travel and subsistence costs of participating personnel who are commuting to, or based at, CERN.

I am convinced that this will be a mutually rewarding collaboration and I am sure that your contribution will be very useful to CMS.

Please do not hesitate to contact me or Mr Andrzej Charkiewicz if you have any questions.

Yours Sincerely,

Dr. Joel Butler
CMS Spokesperson

Cc. Mr Andrzej Charkiewicz, CMS Resources Manager
Prof. Jorgen D'Hondt, Chairperson of the CMS Collaboration Board
Prof. Kerstin Borras, CMS Head of Engagement Office

Dr. Nicanor Colino, CMS Linkperson to Spain
