

About Foundation Ramón Rey Ardid

Foundation Ramón Rey Ardid is a non-profit organization that was created in 1991 to attend the need of people affected by mental illness. After more than 20 years of experience our organization has grown and increased its social presence, by working with other collectives at risk of exclusion (older people, migrants, young people in difficulty, etc.).

The main goals are to achieve full social integration, to cover their basic needs and to improve both their quality of life and their relatives. To achieve these goals we developed different actions: training, awareness, leisure and recreation, etc. FRRA has established diverse agreements with official bodies and private institutions to develop assistance, prevention, rehabilitation, socio-professional integration and training activities.

Projects

Nowadays, Foundation Ramón Rey Ardid is working on a Project of social-labour insertion in mental health area. Through this project we reinforce competences for life and employment through, inter alia, artistic activities and ICT's. In addition, we take part of a group of social entities that are interested on the design of a collective project of intervention for people with mental illness, which will promote their participation
